What services are covered?

All medically necessary services, including preventative care, are covered under the financial assistance program. This includes outpatient services, inpatient care, and emergency services. Please note that charges from private doctors who provide certain services in the hospital are billed by the respective physicians and may not be covered under this program.

How do I get information about the Financial Assistance / Charity Care Program?

While the Bon Secours Financial Assistance program does not apply to physicians or other providers who are not employed by the hospitals and independently bill for their services, Bon Secours does encourage those physicians to consider the hospitals’ financial assistance determination when making billing and collection decisions.

What do I need to do to apply for the program?

Free, confidential help is available for the program. We will help you complete an easy application and will let you know of a few documents that may be needed (photo identification, pay stubs, etc.). If you, your family members, or friends do not speak English, someone will assist you in your own language.

The Financial Counselor can also tell you if you qualify for free or low-cost health insurance such as Medicaid, Child Health Plus and Family Health Plus. If the Financial Counselor finds that you do not qualify for free or low-cost insurance, he or she will help you apply for a charity discount.

Information regarding eligibility for Charity Care/Financial Assistance and the application process is available in the hospitals’ Emergency Department and the hospitals’ registration/admitting areas and on the hospitals’ respective websites.
